### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

#### **In the Specification**

Applicants' Amendment dated July 30, 2003 made on page 1, before "BACKGROUND OF THE INVENTION," has been changed to read as follows:  
-- This is a divisional application of Application No. 09/818,561, filed on March 28, 2001, now U.S. Pat. No. 6,652,062. --

### **REASONS FOR ALLOWANCE**

The following is an examiner's statement of reasons for allowance:

Kashino et al ( art cited by Applicants ), and Fukui et al and Uchida et al ( art recited in PTO-892 ) each teach every limitation recited in the sole independent claim 28 of the present invention, except for the extrusion which is to be provided in the vicinity of an edge portion of the orifice plate on an upstream side with respect to an advancing direction of the wiping blade, and to be protruded from the facing end of the orifice plate. Therefore, in light of this difference, it is concluded that the present invention distinguishes over the art of record.
